DAIKIN
PACKAGED UNITS
ENERGY-EFFICIENT / HIGH EFFICIENCY
UP TO 16.0 SEER, UP TO 8.2 HSPF
Today, the air is perfect. Perfect temperature. Perfect humidity. Perfectly clean and fresh, like just after a rainstorm. And the only thing more perfect than this outdoor scenario is that it’s all happening inside. Because that’s where we work. That’s where we play, where we sleep, where we truly live.

And that’s why at Daikin, we aim to make the air inside as refreshing as the outside. Better comfort. Better control and efficiency. Better quality. So you can create your own unique ecosystem. And everyday is perfect.

Inside and out.
Daikin is a global leader of indoor comfort solutions with millions of systems installed throughout the world. Daikin has been improving the comfort of its customers with exceptional products and services for many generations. As a company whose core business is that of heating and cooling homes and buildings, Daikin takes particular focus on the air you live in.

Air is essential to our existence and Daikin’s role and responsibility in protecting it continues to expand. Daikin is devoted, with unbridled passion, to overcoming the ever-evolving challenges of the air around us. Leveraging our leading, cutting edge technologies with a holistic focus on performance, reliability, design, aesthetics, air environment, ease of use and efficiency, we create outstanding products and system solutions to realize a comfortable and sustainable living environment for all people and all regions of the world.

This is Air Intelligence and this is what Daikin is all about.

The opportunity to experience Daikin’s advanced technologies and solutions is now more accessible than ever before. Cementing our corporate mission of being “globally-local”, many of the Daikin solutions for residential applications are designed and manufactured at our state of the art production facility on the outskirts of Houston, TX. The Daikin Texas Technology Park is a sprawling campus covering more than 4 million sq. ft. and employing more than 4,000 staff. The facility practices Daikin’s philosophy of a full 360 degree focus to R&D, Manufacturing Quality & Reliability, Robust sales networks and extensive support infrastructure.

BE SURE TO WATCH OUR DAIKIN INTRODUCTION VIDEO ON YOUTUBE!
https://youtu.be/dGVkDFAc4-M
Daikin prides itself on its specialized focus to heating and cooling and extends this pride to a meticulous commitment to the design, operation, performance and reliability of all its systems and solutions, including the key components inside those systems. Daikin designs and manufactures many of the components that make up our systems — including the heat exchangers, coils, sheet metal parts, fan blades, and the heart of the system — the Inverter-driven, variable speed compressor*.

**Efficient and dependable compressors for worry-free comfort**

Daikin’s variable speed Inverter compressor* technology is currently providing energy efficient indoor comfort with over 50 million units installed worldwide. This proven technology automatically adjusts the performance of the system’s compressor to match the demand needed to achieve the temperature you have selected on the thermostat. It is like having cruise control for your home’s indoor comfort. Precise adjustments are being made automatically with the goal of providing the most consistent comfort at the lowest possible level of energy consumption. Compare this to a single speed compressor and immediately you’ll see the benefits of the Inverter technology compressor. Daikin designs, engineers, and manufactures its own variable speed Inverter compressors. Rest assured that you are getting a proven design — you are getting Daikin Inside.

*On select models.
Elevate your expectations and get more out of your home’s indoor comfort system performance

As you think about the functionality of your home’s indoor comfort system, the Daikin portfolio of solutions is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step further by considering a state of the art Daikin brand, energy-efficient system. We have designed and engineered all of our products to provide years of consistent indoor comfort — delivering you and your family the type of comfort you never thought possible.

Bold performance

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that use energy resources more effectively. Select a packaged air conditioner if only cooling is needed. Select a packaged heat pump if you desire both cooling and heating. Select a packaged gas/electric or dual fuel model if you need extra performance during the colder months. For replacement or new construction, a Daikin packaged system will provide efficient comfort to your family for years.
COMFORT-ENHANCING FEATURES THAT HELP DELIVER BETTER COMFORT

PACKAGE HEAT PUMPS – UP TO 16.0 SEER, UP TO 8.2 HSPF PERFORMANCE

DP16HH / DP16HM  DP14HH / DP14HM

1. Energy-efficient scroll compressor provides reliable cooling for lower energy bills compared to lower SEER units.

2. Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration delivers outstanding heat transfer properties with R-410A refrigerant.

3. Heavy-gauge galvanized steel enclosure with powder-paint finish protects your system from outdoor elements.

4. Fully-insulated blower compartment with convenient access panels.

5. Quiet operation – Acoustically engineered sound control blanket helps reduce noise levels compared to units without sound blankets.

PACKAGE AIR CONDITIONER – UP TO 15.0 SEER PERFORMANCE

DP15CH / DP14CM / DP14CH

1. Energy-efficient scroll compressor provides reliable cooling for lower energy bills compared to lower SEER units.

2. Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.

3. Heavy-gauge galvanized steel enclosure with powder-paint finish protects your system from outdoor elements.

4. Fully-insulated blower compartment with convenient access panels.

5. Quiet operation – Acoustically engineered sound control blanket helps reduce noise levels compared to units without sound blankets.

ADD EXPERT CONTROL FOR YOUR EASE OF USE

The ComfortNet™ brand programmable or non-programmable touch-screen high-definition digital control for residential and light commercial applications works with our Daikin brand ComfortNet-ready heating and cooling systems.

Programming

» Seven-day programmable system
» Auto heat / cool change-over option: automatically switches between heating and cooling modes
» Customizable home screen
» Dehumidification control
» Independent humidification control

» Airflow speed trimming adjustment
» Intuitive installer menus
» Four steps per daily schedule sequence
» Simultaneous heat and cool program storage
» Energy Management Recovery program (EMR)
» Program-loss, start-up temperature
PACKAGE GAS/ELECTRIC UNITS UP TO 16.0 SEER, 81% AFUE PERFORMANCE

DP14GM / DP16GM
Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.
Heavy-gauge galvanized steel enclosure with powder-paint finish protects your system from outdoor elements.

Fully-insulated blower compartment with convenient access panels
Quiet operation – Acoustically engineered sound control blanket helps reduce noise levels compared to units without sound blankets.

PACKAGE DUAL FUEL UNITS UP TO 14.5 SEER, 80% AFUE PERFORMANCE

DP14DM
Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.
Heavy-gauge galvanized steel enclosure with powder-paint finish protects your system from outdoor elements.
Energy-efficient scroll compressor provides up to 14.5 SEER cooling and up to 8.0 HSPF heating performance for lower energy bills compared to lower SEER rated units.
Gas heat section provides additional heating capacity with up to 81% AFUE
