

## Daikin VRV IV-S series to feature on

HOUSTON, April 18, 2017 – Tune in to HGTV on April 19, 2017, at 8 pm EDT to watch the premiere of HGTV® Smart Home 2017 featuring high-end products including Daikin’s VRV IV-S series for light commercial and residential consumers. This system is tailored for individual zone control and high-efficiency heating and cooling – all in a space saving design.

Daikin is proud to be an HGTV Smart Home 2017 sponsor, and excited for the opportunity to showcase the technological and aesthetic advancements the VRV IV-S series system offers. These intelligent, energy efficient systems provide an unprecedented level of customized design flexibility and individual room comfort and control.

Benefits and features of the VRV IV-S series unit include:

- Condition up to 10 independently controlled zones from one outdoor unit.
- 11 different indoor (ducted or ductless) options offer custom design flexibility for various applications.
- Quiet operation, both inside and out.
- Daikin’s variable speed inverter compressor technology provides excellent energy efficiencies.
- Single-supplier reliability.
- Backed by Daikin’s industry leading 10-year parts and compressor limited warranty\*.

The single-level Southwestern-style home in Scottsdale, Arizona is approximately 3,300 square feet, with three bedrooms and three-and-a-half bathrooms and will be given away to one lucky winner following an online sweepstakes running through June 2, 2017. Five distinct zones were identified in the home for individual comfort control. Each of the five zones included a dedicated heating and cooling indoor unit with independent thermostat control for complete comfort and energy efficiency as part of the VRV IV-S series system.
