### **Daikin AC Introduces New 2' X 2' Ceiling Cassette Indoor Units for Multi-Split Systems**

Carrollton, TX – (May 6, 2013) – Daikin AC is pleased to introduce a new ceiling cassette series for multi-split systems, featuring an extended cooling range from .75 to 1.5 tons to provide comfort in larger zones, adjustable airflow and compatibility with newer wired and wireless controllers, and pre-installed condensate pumps for ease of condensate removal during operation. The new cassettes offer both vertical auto-swing airflow for rapid mixing and adjustability for 2-, 3- or 4-way directional blow, allowing installation closer to walls or in corners to satisfy air distribution requirements in both light commercial and whole-house applications. For enhanced ease-of-use, the new FFQ\_LVJU cassettes are compatible with the new Navigation Remote Controller BRC1E72 with advanced display.

More information can be found in the new Daikin AC website, or from your local Daikin dealer or distributor.

#### **About Daikin AC (Americas), Inc.**

Daikin AC offers North America intelligent heating and cooling solutions with superior energy performance and sophisticated design. The company, based in Carrollton, Texas, is a subsidiary of Daikin Holdings (USA), Inc., which is owned by the Japan-based Daikin Industries, Ltd. Daikin's products are sold in more than 100 countries internationally and the company earned a combined US \$15.2 billion in sales in FY2011 making it the largest HVAC manufacturer in the world. Daikin has over 50,000 employees worldwide and has close to 200 subsidiaries and affiliates. Daikin Industries, Ltd is a publicly held company traded in Japan, and traded on the Tokyo Stock Exchange.
