

Daikin *ATMOSPHERA* with R-32 Refrigerant Wins 2024 SEAL Sustainable Product Award

The first single-zone ductless heat pump system in North America with R-32 low global warming potential (GWP) refrigerant honored by environmental advocacy organization

WALLER, Texas (May 29, 2024) – Daikin Comfort Technologies North America, Inc. (Daikin) a leading manufacturer of heating, cooling, and refrigerant products, received a 2024 Seal Sustainable Product Award for the Daikin *ATMOSPHERA*, the first single-zone ductless heat pump system in North America with R-32, a low global warming potential (GWP) refrigerant.

SEAL (Sustainability, Environmental Achievement & Leadership) Awards is an environmental advocacy organization that honors leadership through its business sustainability awards. The SEAL Sustainable Product Awards honors innovative and impactful products that are literally “purpose-built” for a sustainable future.

“We are honored to receive a SEAL Sustainable Product Award for the Daikin *ATMOSPHERA*,” said Marc Bellanger, Marketing and Communication Vice President, Daikin, “Daikin is committed to decarbonization and electrification efforts, and with the launch of Daikin *ATMOSPHERA* in 2021, Daikin led the industry in North America with the switch to the next generation of refrigerants that have a lower GWP compared to conventional refrigerants like R-410A.”

The Daikin *ATMOSPHERA* single-zone ductless inverter heat pump system is ideal for spot cooling and heating needs in residential and commercial spaces. In addition, it is an effective source of heat to offset old, inefficient furnaces or boiler heating systems. The Daikin *ATMOSPHERA* ductless system is easily applicable to both renovations, for areas that may not have had prior heating or cooling, and new construction, for areas where it is desirable to have comfort control of a single area such as an office, bedroom, or living area.

“Daikin ductless inverter heat pump systems are efficient, quiet, discreet and use state-of-the-art technology,” stated Connie Schroder, Ductless Portfolio Leader, Daikin. “Our products are designed to be highly efficient all year round, and their low energy consumption can help lower energy bills for homeowners.”

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
